

# Need a little extra care?

*“The nurses and aides were so helpful. At first, I needed assistance to even get out of bed, but before I went home, I was able to get around with a walker and wheelchair.”*

**Rosemary Straub**, Keyport

Subacute care is for patients suffering from injuries or illnesses who don't need prolonged hospital or nursing home care, but aren't quite ready to go home yet. It's the perfect bridge between hospital and home—providing highly specialized, supportive care and rehabilitation, in a comfortable, home-like setting. We provide great care, designed just for you.

To learn if subacute care is right for you or your loved one, talk to your doctor.
